THE
AMERICAN NATURALIST

Established 1867

Devoted to the Conceptual Unification
of the Biological Sciences

Edited in the interest of The American Society of Naturalists

George W. Salt, *Editor*
University of California, Davis

Timothy Prout, *Senior Associate Editor*
University of California, Davis

Teresa Carson, *Managing Editor*

ASSOCIATE EDITORS

Michael T. Clegg, University of Georgia
Robert K. Colwell, University of California, Berkeley
Robert M. Fagen, University of Pennsylvania
Beryl B. Simpson, University of Texas at Austin
Montgomery Slatkin, University of Washington
Alan R. Templeton, Washington University
Michael Turelli, University of California, Davis

Volume 120
July 1982–December 1982

Published for

The American Society of Naturalists

by
The University of Chicago Press, Chicago, Illinois

PUBLISHED

JULY, AUGUST, SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER 1982
BY THE UNIVERSITY OF CHICAGO PRESS FOR THE
AMERICAN SOCIETY OF NATURALISTS

INDEX TO VOLUME 120

Alphabetical Table of Contents of Authors

ABELE, LAWRENCE G. See DANIEL SIMBERLOFF
ABRAMS, PETER A. Functional responses of optimal foragers, 382
ANDERSON, BERTIN W., ROBERT D. OHMART, and STEPHEN D. FRETWELL. Evidence for social regulation in some riparian bird populations, 340
ANDERSSON, MALTE, and MATS O. G. ERIKSSON. Nest parasitism in goldeneyes *Bucephala clangula:* some evolutionary aspects, 1
ANDREWS, JOHN H., and DOUGLAS I. ROUSE. Plant pathogens and the theory of *r*- and *K*-selection, 283
ARMSTRONG, ROBERT A. The effects of connectivity on community stability, 391
AYALA, FRANCISCO J. See LAURENCE D. MUELLER

BARCLAY, HUGH J., and PATRICK T. GREGORY. An experimental test of life history evolution using *Drosophila melanogaster* and *Hyla regilla*, 26
BARNARD, C. J. Social mimicry and interspecific exploitation, 411
BOERSMA, P. DEE. Why some birds take so long to hatch, 733
BOYCE, MARK S. See SAMUEL I. ZEVELOFF
BRAITHWAITE, RICHARD W. See STEPHEN R. MORTON
BROWN, LUTHER P. Can guppies adjust the sex ratio? 694
BUNDOCK, M. S. See A. D. SNEYD
BURLEY, NANCY. Facultative sex-ratio manipulation, 81

CABANA, GILBERT, ANTOINETTE FREWIN, ROBERT HENRY PETERS, and LESLIE RANDALL. The effect of sexual size dimorphism on variations in reproductive effort of birds and mammals, 17
CALOW, P. Homeostasis and fitness, 416
CAMPBELL, R. B. Note on migration modification, 119
CASWELL, HAL. Life history theory and the equilibrium status of populations, 317
CAVENER, DOUGLAS R. See MICHAEL T. CLEGG
CHAKRABORTY, RANAJIT. Allocation versus variation: the issue of genetic differences between human racial groups, 403
CLEGG, MICHAEL T., and DOUGLAS R. CAVENER. Dynamics of correlated genetic systems. VII. Demographic aspects of sex-linked transmission, 108
COOKE, FRED, and C. SCOTT FINDLAY. Polygenic variation and stabilizing selection in a wild population of lesser snow geese (*Anser caerulescens caerulescens*), 543
COX, PAUL ALAN. Vertebrate pollination and the maintenance of dioecism in *Freycinetia*, 81
CRITCHLOW, ROGER E., JR., and STEPHEN C. STEARNS. The structure of food webs, 478
CUZIN-ROUDY, JANINE. See MICHAEL E. SOULÉ

EDWARDS, P. J., and S. D. WRATTEN. Wound-induced changes in palatability in birch (*Betula pubescens* Ehrh. ssp. *pubescens*), 816
ELWOOD, J. W. See J. D. NEWBOLD
ERIKSSON, MATS O. G. See MALTE ANDERSSON

FELDMAN, MARCUS. See MARCY K. UYENOYAMA
FINDLAY, C. SCOTT. See FRED COOKE
FRETWELL, STEPHEN D. See BERTIN W. ANDERSON
FREWIN, ANTOINETTE. See GILBERT CABANA

GIVNISH, THOMAS J. On the adaptive significance of leaf height in forest herbs, 353
GORDH, GORDON. See RICHARD F. GREEN
GRAVES, H. B. See H. RENÉE LA PRADE
GREEN, RICHARD F., GORDON GORDH, and BRADFORD A. HAWKINS. Precise sex ratios in highly inbred parasitic wasps, 653
GREGORY, PATRICK T. See HUGH J. BARCLAY
GROSSMAN, GARY D. Stochasticity in structural and functional characteristics of an Indiana stream fish assemblage: a test of community theory. (Erratum), 699
GROSSMAN, GARY D., PETER B. MOYLE, and JOHN O. WHITAKER, JR. Stochasticity in structural and functional characteristics of an Indiana stream fish assemblage: a test of community theory, 423

HADDON, MALCOLM. Frequency-dependent competitive success in an age-structured model, 405
HAWKINS, BRADFORD A. See RICHARD F. GREEN
HERRERA, CARLOS M. Some comments on Stiles' paper on bird-disseminated fruits, 819

INOUYE, RICHARD S. See WILLIAM M. SCHAFFER

JÄRVI, TORBJÖRN, EIVIN RÖSKAFT, and TORE SLAGSVOLD. The conflict between male polygamy and female monogamy: some comments on the "cheating hypothesis," 689

LACHER, THOMAS E., JR., MICHAEL R. WILLIG, and MICHAEL A. MARES. Food preference as a function of resource abundance with multiple prey types: an experimental analysis of optimal foraging theory, 297
LAPRADE, H. RENÉE, and H. B. GRAVES. Polygyny and female-female aggression in red-winged blackbirds (*Agelaius phoeniceus*), 135
LEVINE, LOUIS. Observed frequencies of multiply inseminated *Drosophila pseudoobscura* females in natural populations: a note of caution and explanation, 420
LLOYD, DAVID G. Selection of combined versus separate sexes in seed plants, 571
LOISELLE, PAUL V. Male spawning-partner preference in an arena-breeding teleost *Cyprinodon macularius californiensis* Girard (Atherinomorpha: Cyprinodontidae), 721

MARES, MICHAEL A. See THOMAS E. LACHER, JR.
MILLER, THOMAS E. Community diversity and interactions between the size and frequency of disturbance, 533
MORTON, STEPHEN R., HARRY F. RECHER, STEVEN D. THOMPSON, and RICHARD W. BRAITHWAITE. Comments on the relative advantages of marsupial and eutherian reproduction, 128
MOYLE, PETER B. See GARY D. GROSSMAN
MUELLER, LAURENCE D., and FRANCISCO J. AYALA. Population dynamics in the serial transfer system: comments on Haddon's model, 548
MURDY, HORATIO W. See CATHERINE A. TOFT

NEWBOLD, J. D., R. V. O'NEILL, J. W. ELWOOD, and W. VAN WINKLE. Nutrient spiralling in streams: implications for nutrient limitation and invertebrate activity, 628

OHMART, ROBERT D. See BERTIN W. ANDERSON
O'NEILL, R. V. See J. D. NEWBOLD

PATTEN, BERNARD C. Errata. Environs: relativistic elementary particles for ecology, 422
PETERS, ROBERT HENRY. See GILBERT CABANA

RANDALL, LESLIE. See GILBERT CABANA
RECHER, HARRY F. See STEPHEN R. MORTON
REID, D. See A. D. SNEYD
RICHTER, WAYNE. Hatching asynchrony: the nest failure hypothesis and brood reduction, 828
RICKLEFS, ROBERT E. A comment on the optimization of body size in *Drosophila*

according to Roff's life history model, 686
RÖSKAFT, EIVIN. See TORBJÖRN JÄRVI
ROUSE, DOUGLAS I. See JOHN H. ANDREWS

SALE, PETER F., and DAVID MCB. WILLIAMS. Community structure of coral reef fishes: Are the patterns more than those expected by chance? 121
SCHAFFER, WILLIAM M., RICHARD S. INOUYE, and THOMAS S. WHITTAM. Energy allocation by an annual plant when the effects of seasonality on growth and reproduction are decoupled, 787
SIH, ANDREW. Optimal patch use: variation in selective pressure for efficient foraging, 666
SIMBERLOFF, DANIEL, and LAWRENCE G. ABELE. Refuge design and island biogeographic theory: effects of fragmentation, 41
SLAGSVOLD, TORE. See TORBJÖRN JÄRVI
SNEYD, A. D., M. S. BUNDOCK, and D. REID. Possible effects of wing flexibility on aerodynamics of *Pteranodon*, 455
SOULÉ, MICHAEL E. Allomeric variation. 1. The theory and some consequences, 751
SOULÉ, MICHAEL E., and JANINE CUZIN-ROUDY. Allomeric variation. 2. Developmental instability of extreme phenotypes, 765
STACEY, PETER B. Female promiscuity and male reproductive success in social birds and mammals, 51
STEARNS, STEPHEN C. See ROGER E. CRITCHLOW, JR.
STILES, EDMUND W. Fruit flags: two hypotheses, 500
STILES, EDMUND W., and DOUGLAS W. WHITE. Additional information on bird-disseminated fruits: response to Herrera's comments, 823

TAYLOR, FRITZ. A reply to Philogène: development rates in insects, 692
THOMPSON, STEVEN D. See STEPHEN R. MORTON
TOFT, CATHERINE A., DAVID L. TRAUGER, and HORATIO W. MURDY. Tests for species interactions: breeding phenology and habitat use in subarctic ducks, 586
TRAUGER, DAVID L. See CATHERINE A. TOFT

UYENOYAMA, MARCY K., and MARCUS FELDMAN. Population genetic theory of kin selection. II. The multiplicative model, 614

VAN WINKLE, W. See J. D. NEWBOLD
VERMEIJ, GEERAT J. Unsuccessful predation and evolution, 701

WALSH, JAMES BRUCE. Rate of accumulation of reproductive isolation in chromosome arrangements, 510
WHITAKER, JOHN O., JR. See GARY D. GROSSMAN
WHITE, DOUGLAS W. See EDMUND W. STILES
WHITTAM, THOMAS S. See WILLIAM M. SCHAFFER
WILLIAMS, DAVID MCB. See PETER F. SALE
WILLIG, MICHAEL R. See THOMAS E. LACHER, JR.
WRATTEN, S. D. See P. J. EDWARDS

YODZIS, P. The compartmentation of real and assembled ecosystems, 551

ZEVELOFF, SAMUEL I., and MARK S. BOYCE. Why human neonates are so altricial, 537

Alphabetical Table of Contents of Titles

Additional information on bird-disseminated fruits: response to Herrera's comments. Edmund W. Stiles and Douglas W. White, 823

Allocation versus variation: the issue of genetic difference between human racial groups. Ranajit Chakraborty, 403

Allomeric variation. 1. The theory and some consequences. Michael E. Soulé, 751

Allomeric variation. 2. Developmental instability of extreme phenotypes. Michael E. Soulé and Janine Cuzin-Roudy, 765

The American Society of Naturalists: Reports of the Secretary, Treasurer, and Editors for 1981, 833

Can guppies adjust the sex ratio? Luther P. Brown, 694

A comment on the optimization of body size in *Drosophila* according to Roff's life history model. Robert E. Ricklefs, 686

Comments on the relative advantages of marsupial and eutherian reproduction. Stephen R. Morton, Harry F. Recher, Steven D. Thompson, and Richard W. Braithwaite, 128

Community diversity and interactions between the size and frequency of disturbance. Thomas E. Miller, 533

Community structure of coral reef fishes: Are the patterns more than those expected by chance? Peter F. Sale and David McB. Williams, 121

The compartmentation of real and assembled ecosystems. P. Yodzis, 551

The conflict between male polygamy and female monogamy: some comments on the "cheating hypothesis." Torbjörn Järvi, Eivin Röskaft, and Tore Slagsvold, 689

Dynamics of correlated genetic systems. VII. Demographic aspects of sex-linked transmission. Michael T. Clegg and Douglas R. Cavener, 108

The effect of sexual size dimorphism on variations in reproductive effort of birds and mammals. Gilbert Cabana, Antoinette Frewin, Robert Henry Peters, and Leslie Randall, 17

The effects of connectivity on community stability. Robert A. Armstrong, 391

Energy allocation by an annual plant when the effects of seasonality on growth and reproduction are decoupled. William M. Schaffer, Richard S. Inouye, and Thomas S. Whittam, 787

Errata. Environs: relativistic elementary particles for ecology. Bernard C. Patten, 422

Erratum. Stochasticity in structural and functional characteristics of an Indiana stream fish assemblage: a test of community theory. Gary D. Grossman, 699

Evidence for social regulation in some riparian bird populations. Bertin W. Anderson, Robert D. Ohmart, and Stephen D. Fretwell, 340

An experimental test of life history evolution using *Drosophila melanogaster* and *Hyla regilla*. Hugh J. Barclay and Patrick T. Gregory, 26

Facultative sex-ratio manipulation. Nancy Burley, 81

Female promiscuity and male reproductive success in social birds and mammals. Peter B. Stacey, 51

Food preference as a function of resource abundance with multiple prey types: an experimental analysis of optimal foraging theory. Thomas E. Lacher, Jr., Michael R. Willig, and Michael A. Mares, 297

Frequency-dependent competitive success in an age-structured model. Malcolm Haddon, 405

Fruit flags: two hypotheses. Edmund W. Stiles, 500

Functional responses of optimal foragers. Peter A. Abrams, 382

Hatching asynchrony: the nest failure hypothesis and brood reduction. Wayne Richter, 828
Homeostasis and fitness. P. Calow, 416

Life history theory and the equilibrium status of populations. Hal Caswell, 317

Male spawning-partner preference in an arena-breeding teleost *Cyprinodon macularius californiensis* Girard (Atherinomorpha: Cyprinodontidae). Paul V. Loiselle, 721

Nest parasitism in goldeneyes *Bucephala clangula:* some evolutionary aspects. Malte Andersson and Mats O. G. Eriksson, 1
Note on migration modification. R. B. Campbell, 119
Nutrient spiralling in streams: implications for nutrient limitation and invertebrate activity. J. D. Newbold, R. V. O'Neill, J. W. Elwood, and W. Van Winkle, 628

Observed frequencies of multiply inseminated *Drosophila pseudoobscura* females in natural populations: a note of caution and explanation. Louis Levine, 420
On the adaptive significance of leaf height in forest herbs. Thomas J. Givnish, 353
Optimal patch use: variation in selective pressure for efficient foraging. Andrew Sih, 666

Plant pathogens and the theory of *r*- and *K*-selection. John H. Andrews and Douglas I. Rouse, 283
Polygenic variation and stabilizing selection in a wild population of lesser snow geese (*Anser caerulescens caerulescens*). Fred Cooke and C. Scott Findlay, 543
Population dynamics in the serial transfer system: comments on Haddon's model. Laurence D. Mueller and Francisco J. Ayala, 548
Population genetic theory of kin selection. II. The multiplicative model. Marcy K. Uyenoyama and Marcus Feldman, 614
Possible effects of wing flexibility on the aerodynamics of *Pteranodon.* A. D. Sneyd, M. S. Bundock, and D. Reid, 455
Precise sex ratios in highly inbred parasitic wasps. Richard F. Green, Gordon Gordh, and Bradford A. Hawkins, 653

Rate of accumulation of reproductive isolation in chromosome arrangements. James Bruce Walsh, 510
Refuge design and island biogeographic theory: effects of fragmentation. Daniel Simberloff and Lawrence G. Abele, 41
A reply to Philogène: development rates in insects. Fritz Taylor, 692

Selection of combined versus separate sexes in seed plants. David G. Lloyd, 571
Social mimicry and interspecific exploitation. C. J. Barnard, 411
Some comments on Stiles' paper on bird-disseminated fruits. Carlos M. Herrera, 819
Stochasticity in structural and functional characteristics of an Indiana stream fish assemblage: a test of community theory. Gary D. Grossman, Peter B. Moyle, and John O. Whitaker, Jr., 423
The structure of food webs. Roger E. Critchlow, Jr. and Stephen C. Stearns, 478

Tests for species interactions: breeding phenology and habitat use in subarctic ducks. Catherine A. Toft, David L. Trauger, and Horatio W. Murdy, 586

Unsuccessful predation and evolution. Geerat J. Vermeij, 701

Vertebrate pollination and the maintenance of dioecism in *Freycinetia*. Paul Alan Cox, 65

Why human neonates are so altricial. Samuel I. Zeveloff and Mark S. Boyce, 537
Why some birds take so long to hatch. P. Dee Boersma, 733
Wound-induced changes in palatability in birch (*Betula pubescens* Ehrh. ssp. *pubescens*) P. J. Edwards and S. D. Wratten, 816
